

# STOCKUP™

**ONSITE SUPPLY  
PROGRAM**

# What is *StockUp*™

Our *StockUp*™ Program is designed to be an extension of our warehouse to stock customized inventory at your location. Check out our website and YouTube video to learn more:

Website

YouTube

## Customizable Inventory

Work with our *StockUp*™ team to select products and inventory levels, based on your scope of work.

## Various Storage Options

Based off inventory and location, we utilize trailers, connexes, and tool rooms to efficiently store inventory on your site.

## Automated Inventory Control

Cloud Based software automatically tracks and replenishes inventory based on usage.

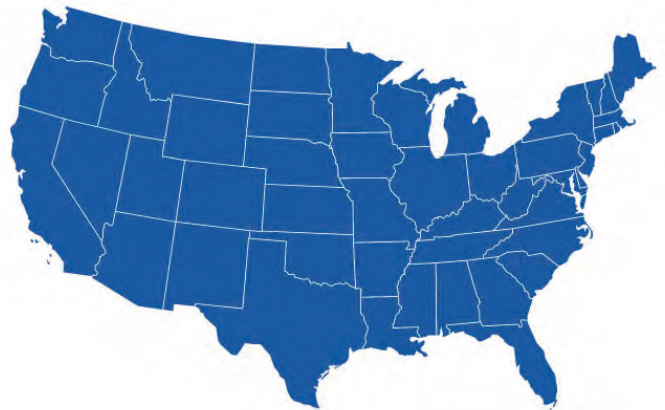

## Unlimited Access

24/7 access to our *StockUp*™ program is available for selected team members.

## Nationwide Shipping

Whether you are down the street or across the country, we can deliver to your jobsite.

# The Benefits

How can onsite supply help enhance productivity on your project? Our *StockUp*™ program is designed to address specific pain points around your project and make your job easier.

## 1 Reduce Cost and Downtime

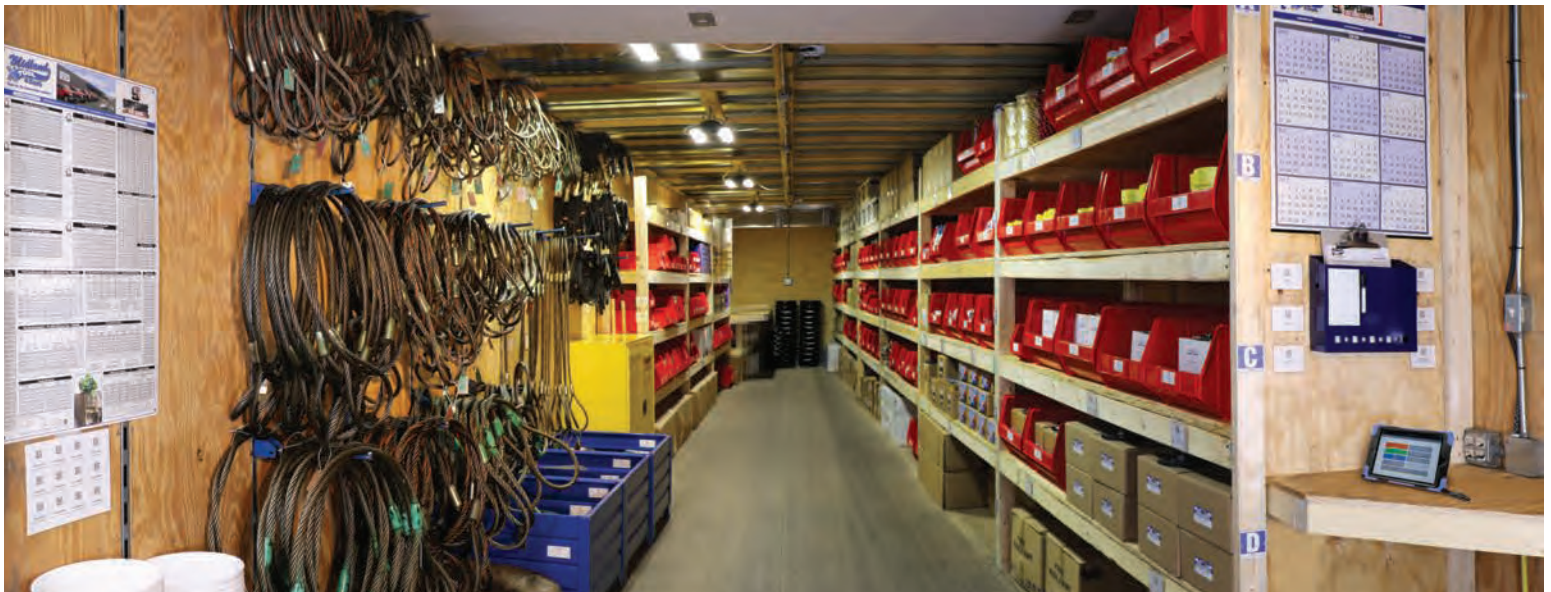

*StockUp*™ puts the products you consistently order directly on the jobsite, reducing your downtime and delivery costs.

## 2 Invoice Efficiently

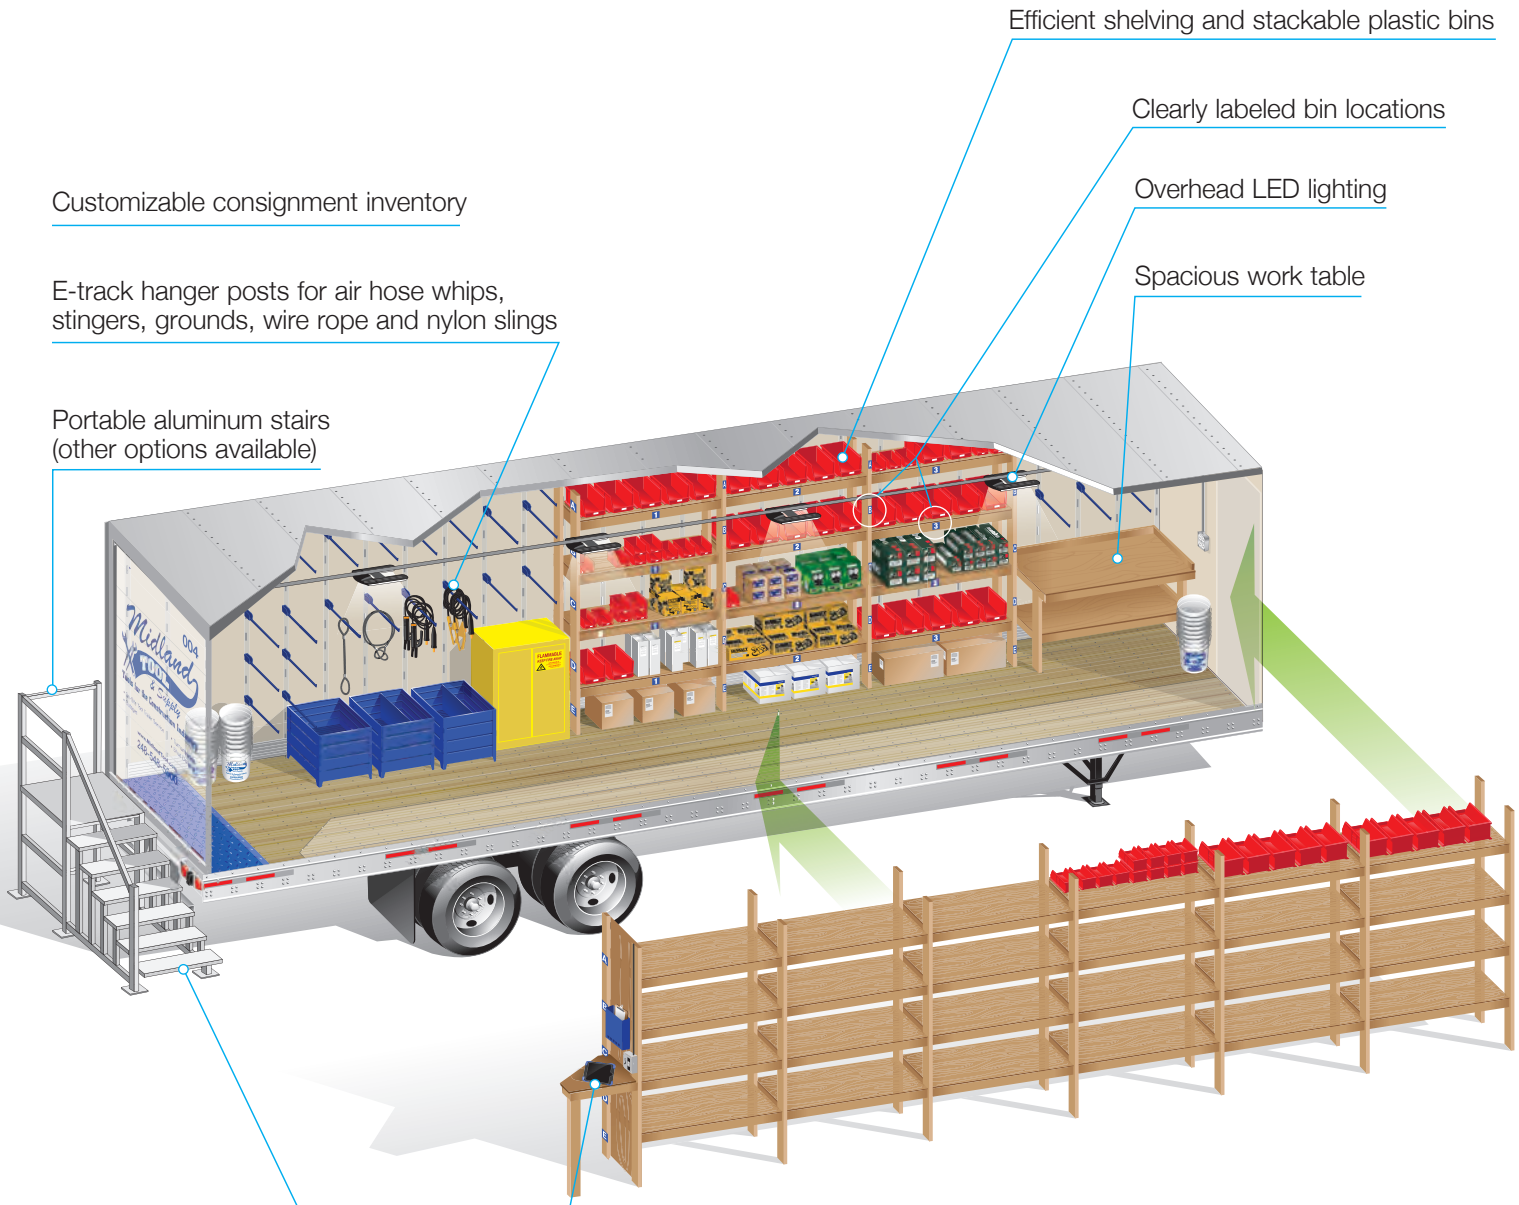

*StockUp*™ can generate invoices daily, or weekly reducing P.O. processing time.

## 3 Report and Forecast

*StockUp*™ software can generate reports to inform management about product by shift, trade or peak manpower. This information can be used to forecast needs for future jobs or outages.

# Trailers

Efficient shelving and stackable plastic bins

Clearly labeled bin locations

Overhead LED lighting

Efficient shelving and stackable plastic bins

Clearly labeled bin locations

Overhead LED lighting

Delivered on our transport trailer

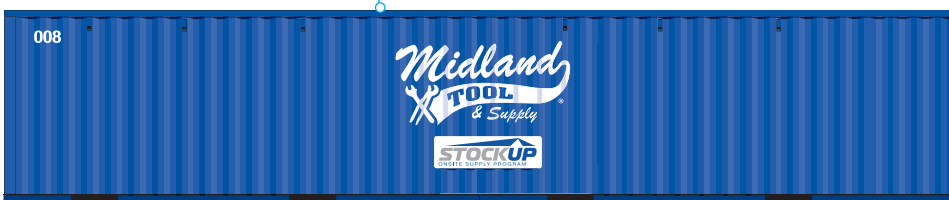

Front & rear 110V interior outlets

Cellular enabled iPad and SDS sheets

40' and 20' connexes available

# The Software

Our supply containers are equipped with our user friendly inventory replenishment software. Manage stock on any mobile device by using the *StockUp*™ app and keep necessary supplies on hand.

## QR Coded

Scan products out as they are pulled from the shelves, and see immediate inventory updates using any connected mobile device.

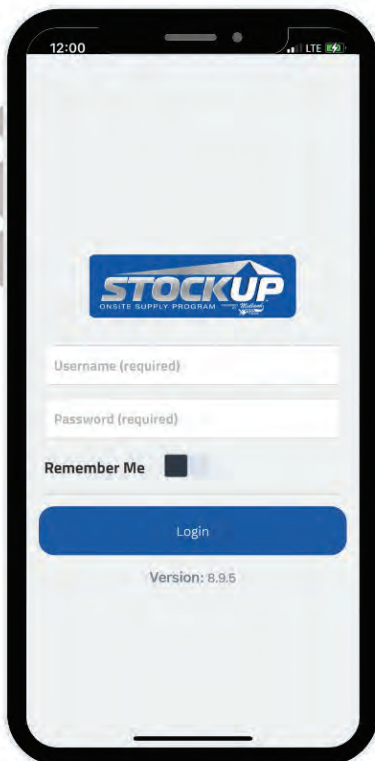

## Automated Replenishment

Inventory levels are managed by mins and maxes, meaning product is automatically replenished when thresholds are met.

## Reporting

Customize your jobsite's inventory, expense reporting, and setup automatic reports to be sent to select personnel.

## StockUp™ in Your Pocket

Midland Tool makes it easy to get exactly what your site needs. Using our *StockUp*™ app, you can manage onsite inventory from the convenience of your smartphone. Scan products out, check inventory levels and replenish stock all in one place. Simply look for the icon above and download the app in the Apple or Google Play Store and *StockUp*™ your site.

### Ready to get started?

It's time to get serious about your supplies! With our help, even the largest construction projects are able to be stocked with immediate access to the tools and supplies you need. Schedule a call with our *StockUp*™ Field Support Manager to customize your inventory today.

**StockUp**™ your site today!
