

HeatArmor®

5059

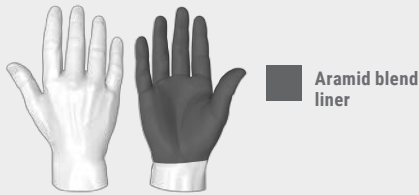

HexArmor®

Built to handle the most extreme occupational heat hazards, HexArmor's HeatArmor® gloves are built from the inside out, with technologies that provide industry-leading cut, puncture, and heat resistance.

An interior aramid palm liner provides level A4 cut protection while the goatskin leather and meta-aramid exterior provide extreme heat protection. With added aramid stitching throughout for extra strength and durability, and goatskin leather reinforcements the result is purpose-built PPE you can trust.

Protection zones

 ANSI/ISEA 105-2016 CUT **A4**

 ANSI/ISEA 105-2016 GRAM SCORE **2147**

 ANSI/ISEA 105-2016 PUNCTURE **3**

 ANSI/ISEA 105-2016 CONTACT HEAT **3**

 EN 388: 2016 **PENDING**

 EN 407: 2020 **41XXXX**

Attributes

Style:	Hot work/Mechanics
Grip:	Wet or Dry
Cuff style:	Elastic with hook and loop closure
Sizes:	7/S through 12/3XL

Product features

- FR oxidized meta-aramid material for heat and flame resistance
- Goatskin leather palm with added reinforcements
- Aramid blend palm liner provides A4 level cut protection (interior layer)
- Aramid stitching throughout for added strength and durability
- EVA foam knuckle patch for bump protection
- Elastic cuff with hook and loop closure for a secure fit
- Designed for hot work and fabrication applications
