

ECOSTATION® COPPER

EcoStation With an Antimicrobial Touch Surface

EcoStation Copper merges Moldex quality with the protective properties of copper. The dispensing handle features a CuVerro® copper surface that, when cleaned regularly, continuously kills bacteria left behind by dirty hands, killing more than 99.9% of bacteria* within two hours.

- **Continues to kill 99% of bacteria* even after repeated contamination**
- **Helps inhibit buildup and growth of bacteria* within 2 hours of exposure between routine cleaning and sanitizing steps**

*Staphylococcus aureus, Enterobacter aerogenes, Methicillin-Resistant Staphylococcus aureus (MRSA), Escherichia coli O157:H7, and Pseudomonas aeruginosa.

With the EcoStation, you can put earplugs anywhere and everywhere. Convenient, quick access and ease of use will help increase compliance. Plus, workers take only one pair at a time, so there is less waste. Less waste means more cost savings.

The easy to install refill, snap in quickly, for fast changeover and the empty bottles are completely recyclable. In addition, like all Moldex products and packaging, EcoStations are 100% PVC-Free to contribute towards a company's overall green initiatives.

- ✓ **More economical and green than packaged earplugs**
- ✓ **Easy-to-install, sealed refills, snaps in quickly**
- ✓ **Gives workers easy access to hearing protection**
- ✓ **All Moldex hearing protectors are independently tested to ANSI S3.19-1974**
- ✓ **100% PVC-Free**
- ✓ **Compliance – High visibility to increase awareness for your hearing conservation program**
- ✓ **Convenience – Hang an EcoStation anywhere and everywhere plugs are needed**
- ✓ **Cost Savings – Workers take one pair at a time so there is no wasteful grabbing of multiple pairs**

EcoStation Copper Starter Kits

Part #	Description	NRR	Quantity	Quantity Per Case
6931	EcoStation Copper Dispenser with 500 Pairs of Softies Earplugs	33dB	1 Dispenser with 500 Pairs	4 Dispensers per Case
